A new leg for 100 francs

Every day 300 people lose a leg in traffic accidents. Half of these are children and young people. In poor developing countries, they have no chance to get off the ground again. Unless they get a new leg. This is exactly what is possible: a new leg. For 100 francs!

Jaipurfoot is the organization that allows a new leg, a new life in India, Africa, Asia and South America. For 30 years. 1.6 million times.

We want to help!

We celebrate Easter: The Resurrection of Jesus! But let's be honest: for most of us, it's only a few days off, Schoggihäsli and Easter egg.

How about giving a poor human being a "resurrection," a new leg at Easter? We'll get a hundred francs together, in the family, with friends !?

Jesus would have joy: "Stand up and walk" is a hundred times in the Bible.

Donate Now: A new leg for 100 francs!
